

CUSTOM ENGRAVED EQUIPMENT

Custom Free Weight Equipment offers facility owners and managers a unique way to establish a competitive point of difference, as well as an outstanding way to brand their club. It's also an excellent recruiting tool for schools and sports teams, sending a clear message that strength training is an important part of the athletic program. Iron Grip is proud to offer the most sophisticated customization capabilities available for your free weight equipment.

Available on Iron Grip Olympic plates (45, 35 and 25 lb. sizes), Urethane dumbbells and Urethane fixed barbells, the customization process begins by scanning your logo into a computer, where it is refined with a sophisticated CAD program. A computer-controlled engraver then reproduces the custom logo on the outer surface of the plate or dumbbell. The engraved logo is then filled with a specialized liquid Urethane and heated to bond permanently to the engraved surface.

These advanced techniques ensure a high degree of customization and faithful reproduction on Iron Grip equipment. Text, logos, and even complex artwork can be duplicated in the engraving process, and multiple colors can be used to further enhance the look. Schools, pro team names, mascots, health club names and logos, and corporate logos can all be reproduced through this unique process.

For a quote on custom equipment for your facility, please [e-mail us](#) your logo and be sure to specify the quantity and type of equipment you are considering.
