

Sani Sport

The science of common sense

The Sani Sport machine will sanitize protective gear.

- Effectively kills bacteria and fungi up to 98% using Ozone
- Reduces risk of infection and skin rashes
- Reduces odor caused by bacteria
- Protects equipment by vaporizing it with completely natural substance
- Extends the life of equipment
- No moving or "tumbling" of equipment that can damage helmets, skates, and other protective gear

Sani Sport VE

The first and **ONLY** solution to address bacteria and viruses in your **Locker Room, Fitness Area** or in any enclosed space. This technology will address and significantly reduce these harmful organisms that exist and live on your floors, walls, ceilings and in the ambient air of your practice and or stadium facilities. Plus to minimize the risk of dangerous bacteria and viruses for your players and team personnel, the **Sani Sport VE** will be an absolute necessity.
